

Texas HCSSA License Survey Readiness Checklist

For Home Health, Hospice, and Personal Assistance Services agencies preparing for an HHSC licensure survey.

How often this happens: HHSC conducts an initial survey once your agency notifies them it's ready. A re-survey follows within 18 months of that initial survey, then at least every 36 months after that — in step with the 3-year HCSSA license period. A survey can also be triggered at any time by a complaint or reported incident, independent of this cycle.

Client & Care Records

- ☐ Visit schedule for the current week (home visits)
- ☐ Client/patient roster — name, address, phone, diagnosis, start-of-care date, certification period, and disciplines providing services
- ☐ Admission packet
- ☐ Discharge roster for the last 12 months — name, start-of-care date, discharge date, and disposition
- ☐ Clinical/client records, as requested by the surveyor

Staff & Training Records

- ☐ Active employee roster — name, title, and hire date
- ☐ Personnel records, as requested by the surveyor
- ☐ Home health aide competency evaluation material (if applicable)
- ☐ Staff in-service and training records

Policies & Quality Documentation

- ☐ Current license copy (and CLIA waiver, if applicable)
- ☐ Policy and procedure manual
- ☐ Complaint log / mechanism for tracking complaints
- ☐ Quality assurance (QAPI) documentation
- ☐ QAPI with clinical record review (unless the survey is licensure-only)
- ☐ Infection control documentation
- ☐ Emergency preparedness plan, including drills and evaluations

☐
☐

Agency annual evaluation

Contracts for services, if applicable (e.g., inpatient facility agreements)

This checklist reflects commonly requested items for a Texas HCSSA licensure survey, drawn from HHSC's published survey-frequency guidance and typical survey documentation requests. The exact list can vary by license category and the specific survey — HHSC may request additional documentation not listed here. Confirm current requirements at hhs.texas.gov before your survey. | Prepared by Ryzolve — ryzolve.com
